Procurement report

Comparing 4 supplier replies for this RFQ.

1. Normalized supplier comparison

Buyer requirements

- **Part:** BRK-4471-A[1]
- **Description:** Machined aluminium bracket[1]
- **Quantity:** 60000[1]
- **Quantity basis:** annual[1]
- **Revision:** Unknown / not stated
- **Material finish:** Unknown / not stated
- **Destination:** Unknown / not stated
- **Release schedule:** Unknown / not stated
- **Required delivery:** Unknown / not stated
- **Priorities:** Unknown / not stated

Supplier terms

Price extensions are arithmetic scenarios, not confirmed ordering plans or landed costs. Unknown charges are not zero. No FX conversion, automatic discount, index adjustment, or tooling-amortization saving is applied. Contextual currency assumptions are labelled inferred and require confirmation.

Currency basis	USD inferred from the bare $ symbol and explicit USD pricing in this RFQ; supplier confirmation required.	Explicitly stated in the quote.	Explicitly stated in the quote.	USD inferred from the bare $ symbol and explicit USD pricing in this RFQ; supplier confirmation required.
Delivery-cost coverage	Nominal FOB price; full delivered cost is not established. Confirm freight and duty coverage.	DDP to the quoted location; confirm that it matches the buyer destination. No cross-currency landed-cost ranking.	Nominal unit price only: freight and duty excluded. No confirmed landed-cost advantage over delivered offers.	Nominal ex-works price; transport and import costs are not established.
Nominal unit price / piece (not landed cost)	USD 4.85 (inferred currency)	EUR 3.92	USD 3.24	USD 4.40 (inferred currency)
Annual price extension (conditional)	USD 291,000.00 (inferred currency)	EUR 235,200.00	USD 194,400.00	USD 264,000.00 (inferred currency)
Extension + one stated tooling charge (conditional)	USD 297,200.00 (inferred currency)	Unknown / not calculated	USD 199,200.00	Unknown / not calculated

Calculated rows use the cited original price, price basis, buyer quantity, and stated tooling. Deposits remain separate. Unit prices are displayed to at most six decimal places; extensions to two, using decimal half-even rounding. Approximate quotes remain indicative.

2. Risks / unknowns

- **Before final comparison — Required drawing revision:** Nordkant Prazisionsteile GmbH references drawing revision C; Pacific Rim Components references drawing revision B. The buyer's required drawing revision is not provided; confirm it before assessing compliance.
- **Before final comparison — Buyer destination:** Buyer destination is missing. Supplier delivery locations are quote terms, not buyer requirements; delivered-cost comparison needs the actual destination.
- **Before final comparison — Release schedule:** Buyer release schedule is missing. Annual demand does not establish order sizes or release frequency; quoted volume and minimum-quantity conditions cannot yet be checked against the purchasing plan.
- **Cost comparison — Pacific Rim Components:** Nominal unit price only: freight and duty excluded. No confirmed landed-cost advantage over delivered offers.
- The required revision is unknown. Nordkant quotes Rev C and Pacific Rim quotes Rev B; neither statement establishes the buyer requirement. (Sources: Buyer, Nordkant Prazisionsteile GmbH, Pacific Rim Components)
- The offers use different currencies and delivery scopes. No FX rate or complete landed-cost basis has been established. (Sources: Buyer, Tri-State Metalcraft, Nordkant Prazisionsteile GmbH, Pacific Rim Components, Brightwater Precision)
- Annual demand does not establish release sizes. Check the planned releases against the quoted 5,000-piece minimum release and 25,000-piece MOQ. (Sources: Buyer, Tri-State Metalcraft, Pacific Rim Components)

- Pacific Rim requires payment before shipment; Brightwater pricing, tooling and startup timing remain provisional. These are distinct commercial exposures. (Sources: Pacific Rim Components, Brightwater Precision)
- Quote-validity periods should be checked against issue dates before relying on current pricing; elapsed validity is not established by this packet. (Sources: Tri-State Metalcraft, Nordkant Prazisionsteile GmbH)

Prioritized supplier issues

Severity / category	Supplier	Unresolved issue	Evidence
HIGH / cost	Tri-State Metalcraft	The quoted scope does not establish delivered cost; obtain the remaining logistics costs after buyer destination confirmation.	Delivery / cost coverage[13]; Other terms: Not established
MEDIUM / cost	Tri-State Metalcraft	Currency or pricing qualification needs confirmation; conditional shortlisting remains possible.	Price currency[13]; Original quoted price[13]
MEDIUM / cost	Tri-State Metalcraft	Currency or pricing qualification needs confirmation; conditional shortlisting remains possible.	Tooling currency[19]; Stated tooling amount[19]
HIGH / technical	Nordkant Prazisionsteile GmbH	Quoted revision bases differ. After the buyer establishes the required revision, this supplier must confirm compliance or re-quote.	Drawing revision[7]; Pacific Rim Components / Drawing revision[10]
HIGH / cost	Nordkant Prazisionsteile GmbH	The quarterly LME adjustment trigger is quoted, but the adjustment calculation and resulting price exposure are not fully specified.	Price adjustment[33]; Price qualifications: Not established
MEDIUM / cost	Nordkant Prazisionsteile GmbH	Tooling is included and amortized over the first 40,000 pieces; the unit-price treatment after amortization is unspecified.	Tooling terms[21]; Original quoted price[14]
MEDIUM / payment	Nordkant Prazisionsteile GmbH	The container deposit is refundable, but return logistics and the timing of its refund are unspecified.	Deposit conditions[23]; Container / packaging deposit[23]
HIGH / technical	Pacific Rim Components	Quoted revision bases differ. After the buyer establishes the required revision, this supplier must confirm compliance or re-quote.	Drawing revision[10]; Nordkant Prazisionsteile GmbH / Drawing revision[7]
HIGH / cost	Pacific Rim Components	The quoted scope does not establish delivered cost; obtain the remaining logistics costs after buyer destination confirmation.	Delivery / cost coverage[25]; Other terms: Not established
HIGH / delivery	Pacific Rim Components	The quoted duration has a production, startup or approval condition; full delivery timing needs clarification.	Lead time / starting condition[29]
HIGH / cost	Brightwater Precision	The price is provisional; a firm price and its conditions are unresolved.	Price qualifications[16]; Original quoted price[16]
HIGH / cost	Brightwater Precision	Tooling is explicitly pending; its cost must be established before firm cost comparison.	Stated tooling amount: Not established; Tooling terms[22]
HIGH / cost	Brightwater Precision	The quoted scope does not establish delivered cost; obtain the remaining logistics costs after buyer destination confirmation.	Delivery / cost coverage[26]; Other terms[34]
HIGH / delivery	Brightwater Precision	The quoted duration has a production, startup or approval condition; full delivery timing needs clarification.	Lead time / starting condition[26]
MEDIUM / cost	Brightwater Precision	Currency or pricing qualification needs confirmation; conditional shortlisting remains possible.	Price currency[16]; Original quoted price[16]

3. Shortlist / recommendation

Advance means pursue clarification or a firm offer, not approve a purchase. Shared buyer unknowns can prevent a final comparison while allowing conditional shortlisting. Hold identifies a material clarification need; do not advance identifies a supplier-specific blocker.

Supplier	Action	Reason / next step
Tri-State Metalcraft	**Shortlist / advance with clarification**	Pursue the four-week release lead time and stated price, subject to delivered-cost clarification, currency confirmation and a compatible release plan. Clarifications: The quoted scope does not establish delivered cost; obtain the remaining logistics costs after buyer destination confirmation. Currency or pricing qualification needs confirmation; conditional shortlisting remains possible. Currency or pricing qualification needs confirmation; conditional shortlisting remains possible. Buyer release schedule is missing. Annual demand does not establish order sizes or release frequency; quoted volume and minimum-quantity conditions cannot yet be checked against the purchasing plan.
Nordkant Prazisionsteile GmbH	**Shortlist / advance with clarification**	Pursue the EUR 3.92 offer at the explicitly quoted 60,000-piece annual tier and its DDP coverage. Confirm revision compliance, destination fit and the long-term pricing conditions. Nordkant Prazisionsteile GmbH quotes Rev C; Pacific Rim Components references Rev B. The buyer's required revision is unknown. Technical equivalence is unconfirmed pending buyer confirmation; neither supplier's quoted revision establishes the requirement. Clarifications: Quoted revision bases differ. After the buyer establishes the required revision, this supplier must confirm compliance or re-quote. Buyer destination is missing. Supplier delivery locations are quote terms, not buyer requirements; delivered-cost comparison needs the actual destination. The quarterly LME adjustment trigger is quoted, but the adjustment calculation and resulting price exposure are not fully specified. Tooling is included and amortized over the first 40,000 pieces; the unit-price treatment after amortization is unspecified.
Pacific Rim Components	**Hold / needs clarification**	Resolve the quoted drawing basis, delivered costs and end-to-end timing before treating this offer as equivalent to the alternatives. USD 3.24 is a nominal unit price, not a confirmed landed-cost advantage. Pacific Rim Components quotes Rev B; Nordkant Prazisionsteile GmbH references Rev C. The buyer's required revision is unknown. Technical equivalence is unconfirmed pending buyer confirmation; neither supplier's quoted revision establishes the requirement. Clarifications: Quoted revision bases differ. After the buyer establishes the required revision, this supplier must confirm compliance or re-quote. The quoted scope does not establish delivered cost; obtain the remaining logistics costs after buyer destination confirmation. The quoted duration has a production, startup or approval condition; full delivery timing needs clarification.
Brightwater Precision	**Hold / needs clarification**	Obtain firm pricing, tooling and startup timing before a firm comparison. Supplier-held safety stock is useful to discuss, but it does not establish delivered availability. Clarifications: The price is provisional; a firm price and its conditions are unresolved. Tooling is explicitly pending; its cost must be established before firm cost comparison. The quoted duration has a production, startup or approval condition; full delivery timing needs clarification.

4. Follow-up questions

Drafts only; no messages have been sent.

Buyer

Resolve first — BLOCKER — buyer requirements for final comparison:

- What is the required delivery destination for comparing the offers on a common basis? (Sources: Buyer)
- What release quantities and frequency are planned against the 60,000-unit annual demand? (Sources: Buyer)
- Which drawing revision must all suppliers meet? (Sources: Buyer)

Tri-State Metalcraft

HIGH — Commercial clarification:

- Once the buyer confirms the destination, can you quote delivery charges and confirm the cost coverage of your FOB terms? (Sources: Tri-State Metalcraft)

MEDIUM — Commercial clarification:

- Please confirm the currency of both the unit price and the one-time tooling charge. (Sources: Tri-State Metalcraft)

Nordkant Prazisionsteile GmbH

HIGH — Commercial clarification:

- How is the LME-based price adjustment calculated, and what happens to the unit price after the first 40,000 pieces have amortized the tooling? (Sources: Nordkant Prazisionsteile GmbH)
- After the buyer establishes the required drawing revision, can you confirm compliance with it and re-quote if it differs from your Rev C basis? (Sources: Nordkant Prazisionsteile GmbH)

MEDIUM — Commercial clarification:

- What container-return arrangements and refund timing apply to the EUR 2,800 deposit? (Sources: Nordkant Prazisionsteile GmbH)

Pacific Rim Components

HIGH — Commercial clarification:

- After the buyer confirms the required drawing revision, can you confirm compliance or re-quote the offer currently based on Rev B? (Sources: Pacific Rim Components)
- Once the destination is confirmed, what freight, duty and other delivery charges apply beyond the FOB unit price? (Sources: Pacific Rim Components)
- Do the quoted nine weeks of production and five weeks of ocean shipping cover the full release-to-delivery timeline, including shipment preparation, clearance and final delivery? (Sources: Pacific Rim Components)

Brightwater Precision

HIGH — Commercial clarification:

- After engineering review, can you provide a firm unit price, confirm its currency and state the tooling charge? (Sources: Brightwater Precision)
- When can production start, and what initial order-to-delivery timeline applies before the quoted six-to-eight-week running lead time is available? (Sources: Brightwater Precision)
- Once the destination is confirmed, what transport and import costs must be added to the EXW offer? (Sources: Brightwater Precision)

Confirm assumptions, technical compliance and unresolved costs against the original quotes before a purchasing decision.

Source evidence

1. We need a machined aluminium bracket, part BRK-4471-A, 60,000 units a year.
2. Quote 1 — Tri-State Metalcraft
3. Quote 2 — Nordkant Prazisionsteile GmbH
4. Quote 3 — Pacific Rim Components
5. Quote 4 — Brightwater Precision
6. Subject: RE: RFQ BRK-4471-A
7. Part: BRK-4471-A (per customer drawing rev C)
8. PART NO BRK-4471-A
9. Subject: BRK-4471-A
10. NOTES PRICE BASED ON DRAWING REV B
11. Pricing firm for 90 days. Anodizing is done in house so we're not exposed
12. ANODIZING SUBCONTRACTED
13. $4.85 per piece, FOB our dock in Cleveland. That's at your 60k annual
14. 60,000 pcs EUR 3.92 / pc
15. UNIT PRICE USD 3,240.00 / 1,000 PCS
16. We can do this part. Looking at around $4.40 a piece at your volumes,
17. MOQ 25,000 PCS
18. number – we'd hold that price for releases of 5,000 or more, below that
19. Tooling is $6,200, one time, invoiced on PO.
20. TOOLING USD 4,800.00
21. Tooling: included, amortized over first 40,000 pcs
22. Tooling we'd need to confirm after our engineering team reviews the drawing – I don't want to quote you a number and then change it.
23. Packaging: returnable steel containers, deposit EUR 2,800 (refundable)
24. Delivery: DDP Columbus, Ohio
25. TERMS FOB KAOHSIUNG LEAD TIME 9 WEEKS PRODUCTION SHIPPING 5 WEEKS OCEAN TOOLING USD 4,800.00 PAYMENT 30% T/T DEPOSIT, 70% BEFORE SHIPMENT NOTES PRICE BASED ON DRAWING REV B ANODIZING SUBCONTRACTED FREIGHT AND DUTY NOT INCLUDED
26. EXW Queretaro. Lead time 6-8 weeks once we're running.
27. Lead time 4 weeks from release, and we can usually beat that. Net 30.
28. Lead time: 11 weeks from order release
29. LEAD TIME 9 WEEKS PRODUCTION SHIPPING 5 WEEKS OCEAN
30. Payment: Net 60 days. 2% discount for payment within 10 days.
31. PAYMENT 30% T/T DEPOSIT, 70% BEFORE SHIPMENT
32. Validity: 30 days from date of issue.
33. Prices subject to quarterly adjustment per LME aluminium index, base 2026 Q1. Adjustments applied where index moves more than 4%.
34. One thing worth mentioning: we'd carry four weeks of safety stock for you at our facility at no charge, which I know has been an issue for you
