2. Risks / unknowns

- **Before final comparison — Required drawing revision:** Nordkant Prazisionsteile GmbH references drawing revision C; Pacific Rim Components references drawing revision B. The buyer's required drawing revision is not provided; confirm it before assessing compliance.
- **Before final comparison — Buyer destination:** Buyer destination is missing. Supplier delivery locations are quote terms, not buyer requirements; delivered-cost comparison needs the actual destination.
- **Before final comparison — Release schedule:** Buyer release schedule is missing. Annual demand does not establish order sizes or release frequency; quoted volume and minimum-quantity conditions cannot yet be checked against the purchasing plan.
- **Cost comparison — Pacific Rim Components:** Nominal unit price only: freight and duty excluded. No confirmed landed-cost advantage over delivered offers.

Data-quality notes

- **Buyer:** Confirm destination. These terms could not be verified from the reply; related totals may be unavailable. This does not establish that the supplier omitted them.
- **Nordkant Prazisionsteile GmbH:** Confirm Selected annual volume tier. These terms could not be verified from the reply; related totals may be unavailable. This does not establish that the supplier omitted them.

3. Shortlist / recommendation

Advance means pursue clarification or a firm offer, not approve a purchase. Shared buyer unknowns can prevent a final comparison while allowing conditional shortlisting. Hold identifies a material clarification need; do not advance identifies a supplier-specific blocker.

Supplier	Action	Reason / next step
Tri-State Metalcraft	**Hold / needs clarification**	Supplier 1 has a competitive price but requires confirmation on currency and delivery terms. The tooling currency is also ambiguous. Conditional shortlisting is possible pending these clarifications. Clarifications: Currency or pricing qualification needs confirmation; conditional shortlisting remains possible. Currency or pricing qualification needs confirmation; conditional shortlisting remains possible. The quoted scope does not establish delivered cost; obtain the remaining logistics costs after buyer destination confirmation.

Supplier	Action	Reason / next step
Nordkant Prazisionsteile GmbH	**Do not advance yet**	Supplier 2's quote is contingent on confirming the required revision and verifying the annual volume. Both issues are critical for compliance and pricing accuracy. Nordkant Prazisionsteile GmbH quotes Rev C; Pacific Rim Components references Rev B. The buyer's required revision is unknown. Technical equivalence is unconfirmed pending buyer confirmation; neither supplier's quoted revision establishes the requirement. Clarifications: Confirm Selected annual volume tier against the supplier's quote before relying on these terms. Quoted revision bases differ. After the buyer establishes the required revision, this supplier must confirm compliance or re-quote.
Pacific Rim Components	**Do not advance yet**	Supplier 3's quote is contingent on confirming the required revision and clarifying delivery terms and lead time. These issues are critical for compliance and pricing accuracy. Pacific Rim Components quotes Rev B; Nordkant Prazisionsteile GmbH references Rev C. The buyer's required revision is unknown. Technical equivalence is unconfirmed pending buyer confirmation; neither supplier's quoted revision establishes the requirement. Clarifications: Quoted revision bases differ. After the buyer establishes the required revision, this supplier must confirm compliance or re-quote. The quoted scope does not establish delivered cost; obtain the remaining logistics costs after buyer destination confirmation. The quoted duration has a production, startup or approval condition; full delivery timing needs clarification.
Brightwater Precision	**Do not advance yet**	Supplier 4's quote is provisional and lacks clarity on tooling costs and delivery terms. These issues must be resolved before advancing. Clarifications: The price is provisional; a firm price and its conditions are unresolved. Tooling is explicitly pending; its cost must be established before firm cost comparison. The quoted scope does not establish delivered cost; obtain the remaining logistics costs after buyer destination confirmation. The quoted duration has a production, startup or approval condition; full delivery timing needs clarification.
